## MR. Ben-Gurion has gone on leave, making it plain that he considers that at present he does not command the support and confidence of his party's representatives in the Cabinet that a Prime Minister requires.

### MAPAI AND DEMOCRACY

When Mr. Ben-Gurion left the Government in 1954, he did so because he felt that the Cabinet was not with him in some major matters of policy. Now it is not policies that are involved, but matters of personnel. We have, in fact, reached the particular crisis that has been brewing within Mapai for a period of years and which has been termed very loosely the "Young" and the "Old". The term is loose, because Mr. Ben-Gurion himself, who is 74, is with the "Young", and Mr. Sapir, the Minister of Trade and Industry, over two decades his junior, is with the "Old". The "Young" are bound by nothing except a general belief that all our pre-State ideologies should be preserved faithfully only the aims, but have no compunction at changing even the most time-honoured methods; if the methods prove inadequate, it is time for their exponents to take a back seat. The "Old", despite their revolutionary background, see no reason why changes cannot be brought about gradually. Although, in 1954, Mr. Ben-Gurion was seeking to establish his ascendancy among the "Young" after Mr. Ben-Gurion's departure, and his willingness to break traditions and move men he held dear to the right place might have made him more at home in that group, the veterans have come to see him as the symbol of the problem that looms in their future. This makes it difficult for them to determine just what clear action would ensure Mr. Ben-Gurion's return, however much they may desire this in their own merits. If the matter were brought before one of the larger Mapai bodies for decision, the answer would come rapidly, for considerable pressure has been building up from the grass roots of the party demanding that the Prime Minister's return be decided by the rank and file can make their voice heard, there will be no insuperable problems to prevent Mr. Ben-Gurion's return at the end of his leave. If he does not return, there is likely to be a rude awakening within the party as to who caused it all. Should his resignation also lead to suddenly inflated demands on the part of left-wing coalition parties, as it is likely to do, with elections after a period of growing instability, there will be an equally rude awakening for the party as a whole.

Some day, in the nature of things, Mapai will have to do without Mr. Ben-Gurion. If it reaches that point with its present heritage of achievement unaltered and unchallenged from within, it will survive. If Mr. Ben-Gurion goes now because the party can no longer agree with him, then it will lose not only his leadership but much of the credit for his past achievements, his enormous personal following within the nation, and the legendary regard he enjoys abroad. Nevertheless, there appears to be a real danger that the excessive clinging to personal viewpoints by everyone — including Mr. Ben-Gurion himself whenever the Army is in any way involved — may prevent the achieving of a compromise until it is too late and irreparable damage has been done not only to a political party but to the current welfare and security of the State and its future development.

## Belgian Left Will Continue Strike

BRUSSELS (UPI). — Belgium's Socialist trade unions voted yesterday to continue the strike movement that has crippled Belgium for 19 days. The move dashed hopes for an early end to the violence which has swept the country.

But the unions rejected demands by the militant left-wing of the party for a general strike and protest marches on Brussels from strikers throughout the nation in an effort to overthrow the Government of Premier Gaslonde.

The Socialists called their five-hour strategy meeting after the Government banned large public gatherings and ordered troops reinforcements into the nation's hard-hit industrial belt, scene of the bitterest fighting against Mr. Eyskens' austerity programme.

Mr. Eyskens took the strict security measures as a result of rioting at Liege, worst of a series of strikes which began last week. Seventy-five persons were injured there, several seriously. Mr. Eyskens said more than 40 of the injured were policemen. Twenty-eight rioters were arrested.

Yesterday's decision by the Socialist leaders to continue the strike was a clear signal that they were determined to kill Mr. Eyskens' programme.

While opposition and Government leaders mapped battle plans, a passenger train was derailed near Liege but there were no casualties.

Police said saboteurs removed steel bolts from the track but a major accident was averted because the train was moving slowly.

Strikers defied a ban imposed by the Government of Liege forbidding public meetings of more than five persons. One rally was attended by about 1,000 persons, with hundreds overflowing into the streets. Police kept clear of this area.

The Socialist Party's newspaper "Le Peuple" yesterday deplored the riot, but added that unfortunately such things happen "when the workers are pushed too far."

The Interior Ministry said "dozens of foreigners" had taken part in the riot, but did not indicate their nationality. The Justice Ministry said a judicial inquiry had been opened.

Seven ships, entered Antwerp harbor during Friday night. Oil refineries and gasoline distributors are resuming work there tomorrow.

Ghent has some trams and buses running and the Socialist Transport Workers Union has ordered a return to work for tomorrow.

## UK Message To India to Revive Laos Int'l Body

NEW DELHI. — The British Government has sent a message to Prime Minister Nehru on the reconvening of the International Supervisory Commission on Laos, authoritative sources said yesterday.

The message, they said, was personally delivered to Mr. Nehru by the British Deputy High Commissioner in India, Mr. Maurice James.

Mr. James yesterday flew to Bhavnagar in south-west India where Mr. Nehru is attending the annual meeting of his Congress Party, because London did not want delivery of the message to have to await Nehru's return to New Delhi, probably tomorrow.

The sources denied a report that the message came from Prime Minister Macmillan personally. Details of the message other than that it dealt with the Laos commission were not available, but the sources expressed optimism about revival of the commission, and said India expected it to be recalled within a fortnight.

## 61 Killed as Rebels Raid South Algerian Poll Station

ALGIERS. — A French army corporal and about 60 Algerian insurgents were killed in a clash at a polling station near Aflou, southern Algeria, yesterday.

A French military spokesman added that three soldiers and about 10 insurgents were wounded in the incident — the worst outbreak of violence so far in the three-day referendum on the future of Algeria.

He said that a "rebel commando" infiltrated among Muslims arriving to vote, rushed soldiers guarding the polling station and made off with several weapons. Troops who counter-attacked recaptured the arms and inflicted losses on the insurgents.

Bombings and shootings, thus far not serious, have already killed 10 persons in Algeria. Five bombs exploded in Algiers Friday. One Muslim nationalist was killed in a clash with troops at Ghelma.

Yesterday's incident came on the second day of the referendum, which ends today with a vital poll in 20 Algerian towns as well as in metropolitan and overseas France.

The clash took place near the town of Aflou, where army lorries were waiting to drive Muslims to vote.

Everything had been going calmly with an overall 85 per cent poll by midday, indicating that for the second day running Algerian peasants had largely ignored insurgent orders to boycott the referendum, and had responded to General de Gaulle's appeal Friday to vote.

Strikes by Muslim shopkeepers in a few areas of western and eastern Algeria were the only other incidents reported yesterday by mid-afternoon.

The management said Mr. Claude Krief was told by Algerian police yesterday to board the next plane for France.

This week's issue of "L'Express" carrying an article by Mr. Krief on Algeria, was seized when it arrived in Algiers yesterday morning.

## Six States Form Joint African High Command

### UAR Anti-Israel Stand Delays Talks

CASABLANCA (Reuters). — The closing session of the African conference yesterday concluded after a delay caused by an eight-hour night session in which the Heads of State failed to iron out difficulties in drafting the final resolution.

The closing session, due to be addressed by the conference chairman, King Mohammed VI, was due to start at 8 a.m. but did not begin until several hours later. The Heads of State who ended their drafting talks only at 2 a.m. again went into conference yesterday morning before the final resolution was agreed.

The closing session was first scheduled for Friday but was postponed amid reports that the Ghana delegation would not agree to the proposed resolution on the problems of "Arab Palestine" and Mauritania.

Conference sources said they understood that Ghana, which maintains friendly relations with Israel, would not agree to the violent denunciation of the Jewish State desired by the UAR. Ghana has also recognized Mauritania, which is claimed by Morocco as part of her national territory.

The unexpected length of the Friday night session caused confusion at a luxury Casablanca hotel, where foreign ambassadors and high government officials waited for more than five hours for the start of a scheduled banquet.

The guests arrived for the banquet at 9 p.m. but the King and other African Heads of State only turned up at 2.30 a.m. Most of the guests by then had made their own arrangements to eat.

No reasons were officially given by conference organizers for the long delay.

The UAR President took on the task of preparing a list when the Zionist Congress Standing Committee requested a decision on this question.

It is understood that under the proposal, the Jerusalem Executive would be composed of 13 members and the new Executive of three or four. There would be only one Chairman, sitting in Jerusalem. The proposed Immigration Authority would be a planning body only, with the intervention of the Department of the Executive arm for matters of Western immigration.

Dr. Naim Heikal, President of the Jewish community in Sefrou, M. Tobaly, was arrested for wearing a blue tie and a white shirt, but was released on the intervention of M. Max Leuch, a member of the Casablanca Municipal Council.

## Cuba Seizes Arms From 'the North'

HAVANA. — The Government announced yesterday that it had seized 200 tons of arms and ammunition had been parachuted into two parts of Cuba early in the day.

A press communique issued by Premier Fidel Castro's Office said the arms were seized by army troops and militia. He said the material "came from the north." It did not mention the U.S.

The Security Council on Friday morning continued its debate on Cuba without reaching any decision. Cuba had requested the meeting to hear charges that the U.S. was planning to invade the island.

An indication of Cuba's willingness for a reconciliation with the U.S. was given on Friday night by Dr. Ernesto (Che) Guevara, President of the Cuban National Bank. He said in a TV interview that it was important that President-Elect John Kennedy had taken no part in the U.S. diplomatic break with Cuba.

Asked what he thought of the "imperialist threat" to invade Cuba, he said: "In my opinion the headlines (of the Cuban papers) are somewhat exaggerated since they are dealing with a delicate situation. He immediately changed the subject.

Most of his talk dealt with his recent trip to Communist nations, and offers of aid they had made.

Dr. Guevara announced that Government members from the highest downwards would work one day a week on construction sites near Havana.

The Government must become a worker in the line in contact with the problems of the working class," he explained.

## Soviets Stop Arms Drop to Partisans

VIETNAME (UPI). — The Soviet Union apparently has stopped dropping arms to the pro-Communist Pathet Lao guerrilla forces which captured the "Plain of Jars" in central Laos, military sources reported here yesterday.

The sources said they had no evidence of other Soviet supplies flights since the National Assembly-legalized invasion-Prince Boun Oum as Premier last Wednesday.

Reports from Washington said the U.S. has allied with other friendly nations it is willing to accept a broader-based non-Communist government in Laos, including the former neutralist Premier, Prince Souvanna Phouma, provided the move is acceptable to King Savang Vatthana.

Prince Souvanna, who flew to Cambodia last month when right-wingers took over, said he was in Phnom Penh yesterday he insisted on the legality of his government.

A Czech-made submachinegun, hand grenades and a quantity of food were found on the two other men.

## Marauders Killed In Upper Galilee

JERUSALEM POST REPORTER. — A marauder was instantly killed and another fatally wounded in an exchange of gunfire with Israeli soldiers on the Lebanese border near Gush Halav, early Friday morning.

The Army spokesman announced yesterday that the patrol encountered a group of three armed marauders near the Upper Galilee village. When called on to halt, the gang opened fire. In the ensuing exchange, one of the intruders was killed, another severely wounded while the third escaped. A search of the area was made for tracks and this man.

A Czech-made submachinegun, hand grenades and a quantity of food were found on the two other men.

## Casablanca Police Hunt 'Zionist Caps'

CASABLANCA (INA). — The Moroccan police are hunting for "Zionist caps" in the Jewish quarter of this city on the evening of January 1, systematically detaining Jewish children wearing blue and white skullcaps, it is learned from well-informed sources. Some 30 boys were arrested.

The President of the Jewish community in Sefrou, M. Tobaly, was arrested for wearing a blue tie and a white shirt, but was released on the intervention of M. Max Leuch, a member of the Casablanca Municipal Council.

## Kennedy May Send Envoy to K

WASHINGTON (Reuters). — President-Elect John Kennedy is reliably reported to be considering sending an emissary to Moscow for talks with Premier Nikita Khrushchev immediately after his inauguration on January 20.

Probing of Soviet intentions is said to be one of the major objectives of the new Administration. It was not immediately known whether the subject was discussed at Kennedy's meeting here with the next Secretary of State, Mr. Dean Rusk.

However, the idea of sending an envoy to Moscow is known to have been under consideration. Speculation here was that Mr. Kennedy's Ambassador-at-Large, Mr. Averell Harriman, would get the task.

Mr. Harriman, Ambassador to the Soviet Union when President Roosevelt was in office, is an expert on Soviet affairs and is an old acquaintance of Mr. Khrushchev.

The Soviet Ambassador here, Mr. Mikhail Menshikov, was widely reported to have been in contact with members of Mr. Kennedy's administration during the last few weeks. It is no secret that these contacts have been made on a friendly basis.

They have been reinforced by public statements by Mr. Khrushchev and his Foreign Minister, Mr. Andrei Gromyko, to the effect that they look for an improvement in U.S.-Soviet relations once Mr. Kennedy assumes power.

One of the first things Mr. Kennedy has been advised to determine is whether the Soviet Prime Minister earnestly desires a disarmament agreement. The new administration also wants to explore possibilities of an early agreement with the Soviet Union and Britain on a nuclear test ban treaty.

## Quiet Restored To Kivu-Ruanda Border

UNITED NATIONS (AP). — A U.N. report issued yesterday said that order has been restored along the Congo frontier between the Belgian-administered U.N. trust territory of Ruanda-Urundi.

The report, sent to the Security Council by Special U.N. Representative Paul van Zant, also declared that a follower of deposed Premier Patrice Lumumba had set up a local administration in Kivu Province and had begun to restore "an effective degree of public authority."

## Goldmann Offers New Executive

A proposed composition of the new Jewish Agency Executive was last night submitted to the Zionist Executive of the World Zionist Organization by Dr. Naim Heikal.

Dr. Goldmann has warned that if his suggestions are not accepted today, he will resign.

The WZO President took on the task of preparing a list when the Zionist Congress Standing Committee requested a decision on this question.

It is understood that under the proposal, the Jerusalem Executive would be composed of 13 members and the new Executive of three or four. There would be only one Chairman, sitting in Jerusalem. The proposed Immigration Authority would be a planning body only, with the intervention of the Department of the Executive arm for matters of Western immigration.

## 50 African Students Due Today

A plane is due at Lydda Airport today direct from Bangui bringing 50 persons from the Central African Republic for study in Israel.

## MAPAI TO DEMAND LAVON EXPLANATION

Jerusalem Post Political Correspondent. — A decision is expected to be taken by the Mapai Secretariat this week calling Mr. Pinhas Lavon to account for his statements in connection with the "Affair." This was believed to have been the main topic of last night's meeting.

Mr. Ben-Gurion has written to Mr. Almoni asking that he take the initiative to have party branches call on him not to resign.

Mapai circles yesterday were sharply critical of Friday's press statements by the Mapai leader, Mr. Meyer Yaari, who claimed that the Lavon Affair was "a direct outcome of the Shin Bet rule in Israel" and who expressed doubt whether the courts were still free from political pressure. Mr. Yaari's statements were taken as an indication of his party's attitude to the trial of one of its leading members, Aharon Cohen, on a charge of contacts with foreign agents, which is due to begin on January 12.

Mr. Ben-Gurion returned to Jerusalem yesterday from his holiday retreat and attended the Saturday night Bible Circle at his residence.

Baron Rothschild arrived in Israel. LYDDA AIRPORT. — Baron Edmond de Rothschild, of Paris, arrived here by B.O.A.C. last night to participate in the opening of the Carmel golf course tomorrow.

On Wednesday, the Baron will open the "Pineau" pharmaceutical plant in Netanya.

## TRUD ATTACK

MOSCOW (INA). — The newspaper "Trud" on Friday denounced the Zionist Congress as "a rally of bankrupts" and said Zionism was "a tool of American imperialism."

It rejected as "quite absurd" the declarations of Zionism and Israel Government leaders about the oppression of the Jewish population in the Soviet Union.

The Secretariat is, however, mediating migration of 1,500-2,000 Jews from the U.S.S.R. to Israel.

## 18 Die in Fire Caused By Smoking in Bed

SAN FRANCISCO (Reuters). — A tenant, Raymond Gorman, 62, was arrested and charged with manslaughter after 18 persons were killed and about 30 seriously burned in a fire at the Thomas Hotel here early yesterday.

Police said the fire started in Gorman's room on the ground floor of the hotel. He denied smoking in bed. Police said another tenant said he had almost put out a fire in Gorman's smoking mattress, but a few minutes later the room burst into flames and the whole building blazed up like a torch.

Arrangements are made all the more difficult by the negligible amount of information available on the 50 persons — men or women, secondary school graduates or university degree-holders, students or practitioners. All that is known in Jerusalem is that the group is led by the Director-General of the Ministry of Education and that nine of its members wish to study technical and industrial instruction; four, social work; nine, fish-breeding; 10, cooperative planning; seven, cattle-raising; seven irrigation and four youth-training.

As there are no courses at present in progress which the newcomers could join with ease, they are expected to be given first of all a tour of the country combined with a little Hebrew.

## GUINEAN PRESIDENT CONFERES WITH TITO

BEGRAD (Reuters). — President Sekou Toure of Guinea and President Tito of Yugoslavia were expected to range over world and African problems. President Toure flew here Friday from Casablanca where he attended the five-nation African conference. He will stay five days.

### Phone History Made

**LYDDA AIRPORT.** — The first plane-to-plane telephone conversation in aviation history was held last week between two brothers flying in opposite directions on El Al Britannias.

An American tourist flying from here to Paris had asked that a phone call be put through to his brother in New York. His sister-in-law, who answered the call, said that her husband had left half-an-hour earlier for London. The Paris-bound radio-man then succeeded in locating the London-bound aircraft over the Atlantic Ocean, put through the call and the two brothers made "aeroplane" history.

## League Table Stays Put After Hard-Fought Matches

### Jerusalem Post Staff

**TEL AVIV.** — Large crowds turned out at football stadiums yesterday to see keenly fought games that generally resulted in draws and brought no change in the National League table.

Haifa has long been known as the land's most successful football team, and yesterday the local Maccabi-Hapoel clash that ended 3-3 after Maccabi led 3-0 at halftime.

Eight thousand saw Tel Aviv Maccabi beat Jerusalem Hapoel 2-1, the same number that watched Tel Aviv Shimshon and Jaffa Maccabi hold each other to a 1-1 draw at the Maccabi Stadium. Tel Aviv Hapoel continued on its winning way with a 4-0 win over Natanya Maccabi before a crowd of 3,000 at the Basa Ground in Jaffa.

League-leading Petah Tikva scored the expected 2-0 win over visiting Bnei Yehuda. The opportunity has been a long time coming for the team, which has been in the bottom of the table for four clear points.

Tel Aviv Betar players and fans will be toasting the club's first goal of the season scored by centre-forward Oz, though the team went down 1-4 to Petah Tikva.

The League "A" programme has reached the halfway mark, and finds Sha'arayim Maccabi leading by one point over Tel Aviv Hakoah, with Kfar Saba Hapoel and Ramat Gan Hapoel two points further back.

The Tel Aviv Hapoel experiment of playing international half-back Gideon Tish at centre-forward paid off, as he scored twice. Outside left Y. Menahem scored Hapoel's other two goals.

City of Jerusalem's Achshaf and Avshalom Ratbi scored Petah Tikva Hapoel's two goals. In Haifa, Maccabi played rings round Hapoel in the

Two persons were killed and three seriously injured in traffic accidents which were reported yesterday.

A 32-year-old man, Avraham Magil, was fatally injured on Wednesday when he was hit by a station wagon on the road near his home in Ezer Uvitzaron, near Rishon LeZion. He was taken to Asaf Harod hospital, where he died a short time later. The driver was detained.

A resident of Ramat Gan, Khamal Abu-Hibda, 40, was apparently the victim of a hit-and-run driver on Friday. He was discovered at kilometre six on the Natanya road by a group of boys who were cycling past at seven o'clock in the evening.

The boys thought the man was simply sleeping at the side of the road, but when they returned an hour later and saw him in the same position, they stopped to check and found him to be dead. A passing taxi was hailed and the driver notified Tel Aviv Police. Police have called on persons who can assist in inquiry to contact the nearest police station.

In the north, two persons were seriously injured in separate accidents, at nearly the same spot on the Afula-Mt. Tabor road on Friday. Among the guests were the Minister of Justice, Mr. Meir Argov, and Mr. Klaus Karkun, 34, of Rosh Pina, was injured when a car overturned. The driver, Arish Andar, Tel Aviv, was unhurt. Later in the day, Mr. Klaus Karkun, 34, of Rosh Pina, was injured when a car overturned. Both injured were taken to the Kupat Holim hospital in Afula.

**HAIFA.** — The objectivity of radio news broadcasting depends not only on the broadcaster but also on the listener. According to a senior official of the Broadcasting Service, Mr. Hanoah Givon, Director of Kol Yisrael, told a press conference here Thursday that objectivity also means the listener's tolerance of opposing views.

The speaker, who said that the listener's tolerance is sometimes considered Kol Yisrael's weakness, said that he "heard" what had been said at all by the announcer or because "they heard it in a biased way."

Answering questions by newsmen on the objectivity of Kol Yisrael's newscasts on political matters in general, and on the Layon Affairs in particular, Mr. Givon said that the Ministry of Education and the Ministry of Health announced yesterday.

**Gentile:** You have always seen Christianity as a kind of logical extension of Judaism. Are you happy with the mystical nature of the Christian Communion, and the Trinity and so on?

**Gollance:** I wouldn't say that the mystical conception of the Trinity appeals to me. Certainly the Trinity makes an intellectual appeal. I think it's quite a good philosophical scheme.

**Freeman:** But you consciously live by Christian ethics now?

**Gollance:** That's putting it too high. Let us say that when I remember to, I try to.

**Freeman:** Why do you prefer them to Jewish ethics?

**Gollance:** Because of the basic concept of loving your enemies. Forgiving your enemies was a possibility in Old Testament times but to love your enemies is something new and I think it is the

Small wonder that this quixotic character has caused a bit of a flutter in the Anglo-Jewish dovocates!
